Priyati Golder

Architect, M.A. Architectural and Cultural Heritage

PROFILE

Architect with more than three years of professional experience in Bangladesh, from concept design to complete working drawings, and a Master's degree in Architectural and Cultural Heritage from Anhalt University of Applied Sciences. Particular interest in conversions, extensions and renovation of existing buildings, combining careful analysis of the historic context with contemporary design. Experienced in ArchiCAD and Revit, used to working with consultants and authorities, and currently improving my German.

PROFESSIONAL EXPERIENCE

10/2020 – 03/2022
Architect
Plan to Perfection (P2P), Chattogram, Bangladesh

- Finley residential building, 14 storeys: concept design through complete working drawings and documentation
- Community library, Rajshahi: design implementation and site management
- Coordination of architectural drawings with structural and MEP consultants to resolve conflicts before construction

01/2019 – 09/2020
Assistant Architect
In Depth Architecture (IDA), Dhaka, Bangladesh

- Conversion of an existing building into the Nestlé Bangladesh Distribution Center: conceptual and design models
- Residential building, 6 storeys: permit application and approval with the local authorities in line with the Bangladesh National Building Code
- Design evaluation and technical analysis of an 11-storey building

10/2018 – 12/2018
Intern Architect
Venna Architects, Dhaka, Bangladesh

- Schematic design, design development and construction documents

EDUCATION
